

Declan Wernham

Declan has been with Simple Solutions since 2012, and has been working in financial services since 2008. Joining us from Lloyds Banking Group as a Personal Banking Manager, Declan has great experience in building client relationships quickly which has proved an excellent foundation for his work with Simple Solutions.

Declan progressed to technical analyst with Simple Solutions, and since achieving his Financial Services Diploma has now moved into our Financial Planner role. He has been a qualified advisor since February 2018, and is currently working towards Chartered status.

Outside of the office, Declan enjoys travel, keeping fit and watching rugby – we're keen supporters of Warrington Wolves RL.

"Helping people take control of their finances and giving them financial security in the future is the best part of my job"
