

Don Wernham

With over 30 years' experience in financial services, Financial Planner Don established Simple Solutions in 2009 to provide financial planning advice in Warrington and the local area.

Don achieved the Diploma in Financial Planning in July 2012 and, in addition to his main role, monitors investment funds and the collation and analysis of model portfolio results in order to provide a unique and effective service to our clients.

Rugby league and golf keep Don busy outside of the office, as well as travelling with wife Tracy and their two sons to Portugal and the family's favourite ski resorts!

"Technology means I am now never really far away from the business. I never like to really "switch off"; I love the job and feel privileged to have a business that I care about in this way."
